WE BUILD POWER SHOPS AND HOME SHOPS LIKE WE BUILD INDUSTRIAL SAWS

You get a big engineering bonus when you buy DeWalt. It’s DeWalt’s experience in building big industrial saws, precision-tooled giants that are the No. 1 saws on America’s toughest jobs. DeWalt builds heavy-duty precision and toughness into Power Shops and Home Shops. In fact, many owners use these saws for light industrial work. We engineer take-up allowances into all the metal-to-metal wear areas. You won’t find any of the end play and inaccuracies and sloppiness that make many saws dangerous. Power Shops and Home Shops are built of the strongest metals available. Yoke and bevel locator pins are steel. They ride in separate sleeve inserts, not in cast-iron. The cast-iron itself is precision machined and won’t warp or get out of parallel. Over and over again, you’ll find that DeWalt design is giving you better work, saving you time and money. For instance, you can convert from square cut to rip or any miter cut without raising or lowering the saw, or changing the fence position. The blade can be aligned when 90° or horizontal to the table, or at any angle in between. And DeWals are safer. They have top elevation handles and controls. They have firm, positive locks that won’t shift while cutting in 90° and 45° positions. Ask for a demonstration of a DeWalt Power Shop or Home Shop right now. Your dealer will be glad to show you ... in action ... how DeWalt saws right and stays tight!

POSITIVE, FIRM LOCKS HOLD; WON'T SHIFT WHILE CUTTING

Six features that demonstrate how—“DeWalt saws right, stays tight longer than any other saw!”

B Front single miter control locks arm at any angle, gives you automatic locating at 0° and 45°.

C Front single rip control automatically locates in-rip and out-rip positions.

D Front single bevel control gives quick, accurate settings at 0°, 45° and 90°.

E New Micro-Positive rip lock with dual pointers and large rip scales.

F Front table clamps quickly release the fence for wide panel ripping.
Every Black & Decker product has been carefully inspected before shipment, and we guarantee to correct any defect caused by faulty material or workmanship. Our obligation assumed under this guarantee is limited to the replacing of any part or parts which prove to our satisfaction, upon examination, to have been defective and which have not been misused or carelessly handled. Arrangements for service on DeWalt products must be made through our Factory Service Branches, Authorized Service Stations or with our Factory. We reserve the right to decline responsibility where repairs or replacements have been made or attempted by others. No other guarantee, written or verbal, is authorized on our products.

**NO-TIME-LIMIT Quality Guarantee**

Dual-arbor motor shaft increases versatility, lets you use right-hand tools. (R-1360, R-1450, R-1511.)

Direct drive motor built by Black & Decker/DeWalt. On 10" DeWals, cutting depth is full 3" … not 2½".

Exclusive! Life-sealed ball bearing roller head. Rides inside arm on precision-machined tracks. (R-1360, R-1450, R-1511.)

Heavy-gauge steel box frame, center support channels and cross ribs.

Built-in automatic brake stops cutting tool in seconds for complete safety. (R-1450 and R-1511.)
ALL NEW 10" POWER SHOP MODEL R-1360

NEW LOW PRICE . . . NEW DESIGN . . . NEW OPERATING FEATURES

You won't find any saw in its class that can beat the R-1360. In cutting capacity . . . power . . . versatility . . . controls, this rugged Power Shop is tops! And you get DeWalt's exclusive quality construction that means saw right—stay tight quality for life. Compare these R-1360 features with other saws: 10" blade cuts 3" deep . . . not 2½". Exclusive top circle of control (all controls up front for operating ease and safety). 2 HP single voltage direct drive motor. Manual brake. Complete factory alignment. Roller head that rides on two precision machined tracks inside arm on four shielded, lubricated for life ball bearings. Yoke swivels 360° horizontally.

$199
A. Up front push-button switch with Safety-Key Lock for fingertip control.

B. Exclusive top elevation control gives you precise depth adjustments with eight section column cap at ¼" increments.

C. Exclusive wedge-lok miter locator locks positively at 0° and 45°. Scale marked in single degrees.

D. Front single rip control automatically locates both in rip and out rip positions.

E. Front single bevel control provides for quick and accurate settings at 0°, 45° and 90°.

F. Direct drive fan cooled motor with manual push button brake stops cutter in seconds.

G. Dual-arbor motor shaft increases job versatility, permits use of right hand tools.

H. Large novelty table allows out-ripping with blade located over table.

*Model R-1513—Same as R-1511 except 3-phase 208-240/440V. motor, 60 cy. with magnetic switch, with low voltage (end of arm) 110V. Control.
1. Standard saw blade is 10" diameter. Accessory 12" saw guard will accommodate 12" saw blade and give a 4" deep cut. 2. 2 1/4" with 12" blade.
New low price on the most powerful and versatile DeWalt Power Shop of all! All controls are up front for easy handling and safety. Big 10” blade cuts a full 3” deep...not 2 1/2”. Saw right—stay tight performance is assured by rugged construction on a heavy gauge steel base...and with the most important list of features in home workshop saws!

A Up front push-button switch with Safety-Key Lock for fingertip control.

B Front miter scale at eye-level for fast, accurate setting.

C Top front elevation control above arm for safe, easy operation.

D Front single miter control locks arm at any angle. Automatic locating at 0° and 45°.

E Front single rip control automatically locates both in-rip and out-rip positions.

F Front single bevel control provides for quick, accurate settings at 0°, 45° and 90°.

G New micro-positive rip lock with dual pointers and large rip scales.

H Exclusive sealed-for-life ball bearing roller head rides inside arm on precision machined tracks.

J Dual-arbor motor shaft increases job versatility, permits use of right hand tools.
DEWALT 8" HOME SHOP MODEL R-1150

More than ever at the new low price, the Home Shop is your greatest home workshop value of all. It will saw right and stay tight as long as you use it!

A Massive one-piece hub eliminates "play," assures accuracy.

B Simple, positive adjustments. Both elevating and mitering mechanisms are housed in hub.

C Arm rotates 180° vertically with positive bevel indexing latch at each 45° position; also rotates 360° horizontally with positive indexing latch at 45° left and right hand miter positions.

D Large bevel rip, bevel crosscut and miter scales are easy to read.

E Eight-inch blade and guard included.

F Mechanical alignment adjustments provide for a lifetime of "saw right—stay tight" accuracy.

G Extra-strong, one-piece tubular steel column is mounted directly to frame.

H Roller head rides on two formed steel tracks for precision cutting.

HEAVY DUTY 10" BUILDER'S DEWALT MODEL R-1511 $395

This big, rugged saw makes 15° angle cuts up to 16" long. Cuts full 3" deep. It's built for hard, accurate work and safety. Built-in automatic brake. Heavy gauge steel base and legs. Work table of HARDPLY.

A Front push-button switch with Safety-Key Lock for fingertip control.

B Powerful Black and Decker-DeWalt built, totally enclosed direct drive motor delivers 3 HP.

C Dual-arbor motor shaft increases job versatility, permits use of right hand tools.

D Roto-grip motor brake operates automatically, stops cutting tool in seconds for complete safety.

E Exclusive sealed-for-life ball bearing roller head rides inside arm on precision machined tracks.

F New micro-positive rip lock with dual pointers and large rip scales.

*Model R-1513. Same as R-1511 except 3-phase 208-240/440V. Motor, 60 cy, with magnetic switch, with low voltage (end of arm) 110V. control. $495.
BLACK & DECKER/DEWALT'S EXCLUSIVE QUICK-SET DADO R-2860 $24.95

Now, dial your dado without wobble, without removing tool from arbor. Any width you want from 3/4" to 7/8". Make perfect dadoes, rabbets and ploughs without vibrations, wobble, chatter, burning or chewing. Eight balanced, high-speed tool steel QUICK-SET blades cut clean... stay sharp five times longer than ordinary blades... get faster production on any radial arm or table saw with the Quick-Set Dado!

R-7470 8" dia. Sander Disc Set (includes bevel edge disc, one 6" dia. pressure sensitive sandpaper disc No. 60 grit)...
$7.95
R-467 8 assorted 8" pressure sensitive sandpaper discs: 1 No. 80, 2 No. 60, 3 No. 80 grits...
$4.95
Drum Sanders, no adapter necessary.
R-7406 2 1/2" dia., 6" long, Drum Sander, 3/8" L.H. thread fits arbor shaft, all models...
$6.95
R-7873 3" Drum Sander, 3" long, 3/8" L.H. thread fits arbor shaft, all models...
$5.95

## ABRASIVE BLADES. Highest quality grit gives Longer Life. Faster Cutting—real time and money saved. Efficiently cut or slit materials below. Reinforced with fiberglass to give Safe Performance and Longer Life—makes blades highly resistant.

## METAL CUTTING (Blue Label): aluminum oxide; cut ferrous metals (steel, cast iron, stainless steel) & hardened non-ferrous (hard brass, aluminum, bronze).

## MASONRY CUTTING (Red Label): silicon carbide; cut masonry materials, concrete, soft brick, tile, glass. For cutting abrasive CAE metal, ceramic, concrete block, glass, gypsu, wallboard, tiles, limestone, sandstone, granite, conglomerate, sandstone, etc.

## TILTING CUTTING (Silver Label): silicon carbide; cut glazed and ceramic tile, terra cotta, brick, roof and structural tiles, terra cotta, marble, granite, slate, etc.

*Number of Teeth*
ALL-PURPOSE VACUUM CLEANERS

Designed for “man-type” cleaning. Lightweight, easy to move and empty. Standard equipment includes 6 ft. of 2½” diameter plastic accordion-type hose and a triangular 2½” bulk pickup nozzle for big cleaning jobs: wood chips, sawdust, garage floor, patio, fireplace ashes, automobile and many other applications. Also U-1468 2½” to 1¼” diam. conversion size reducer for using 1¼” accessories.

U-190 5 gallon capacity steel tank; 5.2 amperes, 1.1 H.P. motor ..... $29.99
U-191 10 gallon capacity steel tank; 5.2 amperes, ½ H.P. motor ..... $36.99
U-292 18 gallon capacity fiber tank; 6 amperes, 1 H.P. motor ..... $39.99

CLEANSER ACCESSORIES

U-1461 Square Nozzle, 2½” (Standard Equipment) ..... $2.99
U-1462 6 ft. Hose with coupling (2½” Standard Equipment) ..... $7.99
U-1463 2½” Nozzle Ext. Tube, 2¼”. ..... $2.99
U-1464 14” Floor Nozzle with Brush ..... $5.78
U-1465 Small Round Nozzle, 2½” ..... $1.29
U-1466 Flange Ferrule, 2½” ..... $1.49
U-1467 Elbow, 2½” ..... $2.29
U-1468 2½” to ½” diam. Conversion Size Reducer ..... $1.99
U-1469 Paper Filter Bags—Pkg. of 5. ..... $9.99

U-1470 Cloth Filter Bag ..... $1.39
U-1471 Caster Set (4) for U-190. ..... $5.99
U-1472 Caster Set (4) for U-292 or U-293 ..... $5.99
U-1473 Round Brush 1¼” ..... $1.49
U-1474 6” Nozzle, 1¼” ..... $1.49
U-1475 “Crevice Tool”, 1¼” ..... $1.99
U-1476 20” Extension Tube, 1¼” ..... $1.99
U-1477 Oval Nozzle & Brush, 1¼” ..... $2.99

U-1478 6 ft. Hose and Extension, 1¼” ..... $5.99
U-1479 Cover for U-190 Vacuum Cleaner. ..... $2.50
U-1480 2½” diam. Crevise Tool. ..... $2.99
U-1481 2½” diam. Round Nozzle with Brush ..... $3.49
U-1482 2½” diam. Vacuum Cleaner Accessory Set includes 2 U-1468 2½” Nozzle Extension Tubes, U-1464 14” Floor Nozzle, U-1480 Crevise Tool, U-1481 Round Nozzle with Brush ..... $8.98
U-1484 Set of 4 Casters for U-191. ..... $5.99

AUTHORIZED SERVICE STATIONS

AUTHORIZED SERVICE STATIONS

DEWALT GIVES YOU UNMATCHED VERSATILITY IN WOODWORKING

**Sawing**
- MITER CUTS. Simply set the arm at the desired angle and cut. One motion does it.
- WIDE PANEL RIPPING. Table provides support for ripping beyond center of 4'x8' panels.
- BEVEL CROSS-CUT. Tilt saw to desired angle, make this cut in single pass.
- CROSSCUTTING. Top side cutting action holds lumber on table against fence, no kickbacks.
- CROOVING. With DeWalt you have complete control...and perfect grooving.

**Dadoing**
- STRAIGHT OR ANGLE DADO. Operations are quickly accomplished with professional quality.
- FLOUGHING. Cut a set depth and width, full length of stock with great accuracy.
- FLUTING. Simply a series of parallel "V" grooves, for decoration.
- TONGUE AND GROOVE. Make your own flooring, and wood panels.
- BLIND MORTISING. Make a groove into which a tenon can be fitted and locked.

**Shaping**
- CABINET DOOR RIP CUT. Make the full bead and rab- bet cut in a single smooth operation.
- TILTING ARBOR SHAPER. Multiply the number of different shapes from a single cutter.
- SHAPER MOULDER. Makes decorative designs on edge, side or face of material.
- PRECISION CHAMFER CUT. Use straight edge cutter knives. Bevel the motor.
- GLUE JOINT CUT. It's easy to glue wide boards together to make your own table top.

**Sanding**
- BEVEL SANDING. Put Disc Sander into bevel position, pull across the stock.
- SURFACE SANDING. Rough stock can be given fine, smooth finish with Disc tilted 90°.
- IT'S A DRUM Sander. Sanding inside curves or irregular shapes is easy.
- END BORING the stock for insertion of dowels to hold corners for doors and windows.
- HORIZONTAL BORING into material for beautiful decorative effects.

**Sabre Saw**
- No. R-1254 SABRE SAW mounts directly on motor.
- Does outside curve work.
- Does inside curve work.
- Does angle curve work.

**plus sizing, jointing and curve work**
